

HOW SAFE IS YOUR WORLD?

In 2008, the National Transportation Safety Board investigated 1,761 aviation accidents – 375 of which resulted in one or more fatalities.

When an aviation fatality occurs, the benefits of having an aviation expert on hand can substantially affect litigation outcomes. At Curt Lewis & Associates (CLA), LLC, we understand how best to support your legal team.

CLA employs aviation safety professionals who can provide accident/incident investigation and reconstruction for:

- Commercial aviation
- Fixed-wing rotor aircraft
- General aviation
- Military aviation

Using our experts, your legal team adds depth of knowledge in:

- Pilot training and performance
- Aviation safety and FAA regulations
- Aircraft maintenance
- Human factors
- System failure analysis

Call us today for a free consultation on how we can provide a safe haven of expertise for your legal team.
